Rehearsal Resources

We're committed to ensure the transition back to regular venue rehearsals is done in the right way and in the best interest of everyone. We will integrate us back together onto the same page, both online and at venue, gigs etc. Our brand new Rehearsal Resources page is a great source for integration and is full of our current songs, with practise parts for each section

Why only 2 venues?

Over the course of the 2020, the choir has understandably decreased in size and yet amazingly grown in passion, dedication and music. Many of our regular rehearsal venues aren't suitable for the guidelines we need to follow or have sadly had to close for good. The North and South venues are very suitable, larger venues and the only two we've been lucky enough to hire within the area for now. We are genuinely excited for the new future and growth of FV and the spirit and craziness it brings.
